Oecologia Australis

Dear Editor

Here attached is the electronic version of the manuscript entitled "Helminth community structure of two sigmodontine rodents in Serra dos Órgãos National Park, state of Rio de Janeiro, Brazil", by Thiago dos Santos Cardoso, Carla Elizabeth Macabu, Raquel de Oliveira Simões, Arnaldo Maldonado Júnior, José Luis Luque and Rosana Gentile, submitted for publication on Oecologia Australis in the category of original article. The submission is for the special issue of "Survey, ecology and species management in Protected Areas". The manuscript represents an original contribution that has not been published and is not under consideration elsewhere. All authors have contributed substantially to the manuscript and approved the final submission.

According to the journal's instructions, we suggest as reviewers the following names:

Dr. Agustin Jiménez, Southern Illinois University – agustinjz@zoology.siu.edu  
Dr. Cláudia Portes dos Santos Silva, Oswaldo Cruz Foundation – cpsantos@ioc.fiocruz.br  
Dr. Jeannie Nascimento dos Santos, Federal University of Pará - jeannie@ufpa.br  
Dr. Joyce Gonçalves Rozário de Souza, Oswaldo Cruz Foundation - joycegrs@gmail.com  
Dr. Natalie Olifiers, Veiga de Almeida University - natolifiers@gmail.com

Looking forward to an appreciation soon,  
Sincerely,

---

Thiago dos Santos Cardoso
