

April 19, 2020.

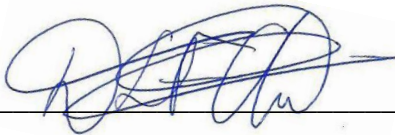

Dear editor,

The manuscript “Ichthyofauna of tributary streams of the Cinzas River basin, upper Paraná River, Brazil” is submitted to be considered for publication in the *Oecologia Australis*, in “Original Articles” format.

The content of the manuscript is responsibility of the authors: Dyego Leonardo Ferraz Caetano, Edson Fontes de Oliveira and Cláudio Henrique Zawadzki. The article has never been published and not under revision by other journals. All the authors are aware of the submission.

This manuscript is a original article about the fish assemblages from three streams of the Cinzas River basin, upper Paraná River. This work aims to contribute to knowledge about the streams Neotropical ichthyofauna, serving for the management of the fishing resources.

Yours sincerely

Dyego Leonardo Ferraz Caetano
