

Dear Dr. Dra. Camila dos Santos de Barros,
Editor-in-chief of *Oecologia australis*

Please consider the manuscript “*Aves marinhas no Brasil: desafios e ações para a conservação*”, which was prepared as a Review for potential publication in *Oecologia australis*. The manuscript focuses on synthesizing (rather than providing a systematic review) the main threats and actions for seabird conservation in Brazil and is written in Portuguese to better reach native readers. Therefore, we are confident that the manuscript is in the *Oecologia Australis* scope and will be of interest to a broad audience.

All authors have seen and approved the submitted manuscript, and the manuscript has not been published elsewhere or submitted simultaneously in other journal(s). All authors agree that the article will only be published upon payment of the cost of the manuscript according to the value indicated on the *Oecologia australis* page. Please, find below information on five potential referees:

1. Name: Dimas Gianuca
